Portfolio| LinkedIn | GitHub | Open to Relocation (India)

PROFESSIONAL SUMMARY

Associate Software Engineer with hands-on experience in requirement analysis, application development and maintenance, and performance optimization. Strong foundation in **Java**, **JavaScript**, **RESTful APIs**, **databases**, and **SDLC**. Experienced in **unit testing**, **debugging**, and version control using **Git** while working in **Agile/Scrum** environments.

PROFESSIONAL EXPERIENCE

Software Development Experience
Academic & Self-Initiated Projects Dec 2024 – Present

- Designed, developed, tested, and deployed applications following **SDLC**.
- Implemented **OOPS** concepts using **Java** and JavaScript.
- Developed **RESTful APIs** using **Spring Boot** and **Node.js**.
- Worked with **MySQL** and **MongoDB** for database operations.
- Applied **Agile/Scrum** practices in sprint-based development.
- Performed **unit testing, debugging, and code optimization**.
- Used **Git & GitHub** for version control and CI workflows. Deployed applications on **AWS (EC2, S3, RDS)**.
- Provided application support and participated in maintenance activities during development phases.

TECHNICAL SKILLS

Languages: Java(Core Java, OOP, Collections, Multithreading), JavaScript, TypeScript, SQL, Python
Frameworks: Spring Boot, Hibernate/JPA, React, Node.js, Next.js, React Native
Databases: MySQL, MongoDB
Tools & Cloud: Git, GitHub, Postman, Docker (Basic), Render, Vercel, AWS (EC2, S3, RDS)
Concepts: OOPS, Data Structures, DBMS, SDLC, REST API Development, Exception Handling, JDBC, Design Patterns (Basic), Agile/Scrum), Microservices Architecture

PROJECTS

VShop – E-Commerce Web Application (MERN Stack) Sep 2024

- Developed authentication, product, and order modules serving 50+ test users
- Designed and optimized RESTful APIs, improving response time by approximately 25%
- Implemented JWT-based authentication and followed SDLC best practices

Money Planner – Mobile Application (React Native) Jan 2025

- Built a cross-platform expense tracking application with CRUD operations
- Integrated real-time database and implemented modular, reusable components
- Performed debugging and performance optimization

SmartBuddy – Web Application (Next.js) Aug 2025

- Built a modern web-based application for automated code analysis an ai refractor
- Integrated third-party APIs and followed clean coding standards
- RESTful APIs using Spring Boot and implemented CRUD operations using MySQL and Hibernate/JPA**.**

EDUCATION

Bachelor of Computer Applications (BCA) — 8.1 CGPA
Veer Bahadur Singh Purvanchal University | 2021 – 2023

ACHIEVEMENTS

- Solved **100+ DSA problems** (LeetCode, GFG).
- Completed **1200+ hours of hands-on coding practice**.
